

Experiment 10: free, sort, history

Aim

To understand and practice memory usage, sorting and command history commands:

- `free` - Display amount of free and used memory in the system
- `sort` - Sort lines of text files
- `history` - Display the command history list

Procedure

1. Open Terminal in Kali Linux.
2. Check memory usage:
`free -h`
3. Create a sample file and sort it:
`echo -e "banana\napple\ncherry\nmango" > fruits.txt`
`sort fruits.txt`
4. Display command history:
`history`
5. Show last 10 commands only:
`history | tail -10`

Sample Output / Results

free -h:

```
$ free -h
```

	total	used	free	shared	buff/cache	available
Mem:	3.8Gi	1.2Gi	1.8Gi	120Mi	800Mi	2.3Gi

sort:

```
$ sort fruits.txt
apple
banana
cherry
mango
```

history:

```
$ history | tail -5
105 free -h
106 sort fruits.txt
107 history
```

```
