

Experiment 5: uptime, date, mv

Aim

To understand and practice the following system and file management commands:

- `uptime` - Show how long the system has been running and load average
- `date` - Display or set the system date and time
- `mv` - Move or rename files and directories

Procedure

1. Open Terminal in Kali Linux.
2. Check system uptime:
`uptime`
3. Display current date and time:
`date`
4. Create a test file:
`touch oldname.txt`
5. Rename the file using `mv`:
`mv oldname.txt newname.txt`
6. Verify the rename:
`ls -l newname.txt`

Sample Output / Results

uptime:

```
$ uptime
10:15:32 up 2:45, 1 user, load average: 0.15, 0.10, 0.05
```

date:

```
$ date
Mon Aug 3 10:15:32 IST 2026
```

mv:

```
$ touch oldname.txt
$ mv oldname.txt newname.txt
$ ls -l newname.txt
-rw-r--r-- 1 kali kali 0 Aug 3 10:15 newname.txt
```

```
